**GAAP net income of \$6.5 million and Adjusted EBITDA of \$48.9 million**  
**Company re-affirms 2022 guidance**

CHARLOTTE, NC (May 11, 2022) – Krispy Kreme, Inc. (NASDAQ: DNUT) (“Krispy Kreme” or the “Company”) today reported strong financial results for the first quarter ended April 3, 2022 with net revenue growing 15.8% year-over-year to \$372.5 million while organic revenue grew 15.0% to \$370.1 million with high growth across all three segments. Sales per Hub in the U.S. and Canada increased by 19.4% year-over-year to \$4.3 million while International Sales per Hub leapt 49.2% to \$9.7 million, driven by a 21% increase in global points of access and a significant increase in U.S. and Canada weekly sales per Delivered Fresh Daily (“DFD”) door.

GAAP Net Income for the quarter was \$6.5 million compared to a loss of \$0.4 million a year ago while GAAP diluted Earnings Per Share for the quarter was \$0.02 compared to a loss of \$0.03 last year. Adjusted diluted Earnings Per Share was \$0.08 for the quarter, compared to \$0.11 last year primarily due to share dilution from an increased share count following the IPO. Adjusted EBITDA grew 5.4% in the quarter to \$48.9 million led by a 90 basis point improvement in U.S. and Canada margins.

Growth was driven by the performance and expansion of Krispy Kreme’s Omni-channel model, and strong performances across all three business segments. Global Points of Access, which reflect all locations where fresh doughnuts and cookies can be purchased, increased by 600 during the quarter, providing consumers access to Krispy Kreme in more than 11,000 locations around the world.

Commenting on the Company’s performance, President and CEO Mike Tattersfield stated, “Our results in the first quarter continue to demonstrate the benefits of our omni-channel model and global expansion strategy, which allow us to meet consumer demand with premium, fresh doughnuts in a capital efficient manner. Our global Valentine’s Day and St Patrick’s Day campaigns and limited time offerings such as our Twix and Rolo Doughnuts resonated strongly with consumers, highlighting the opportunities for premiumization and the gifting and sharing power of the brand.”

Mike continued, “We continue to be well-positioned to deliver another year of double-digit revenue growth in 2022 despite macro-challenges. Our performance will continue to be driven by the expansion of our omni-channel model as we significantly expand our points of access and continue our transformation to the more profitable and capital efficient Hub and Spoke model in the U.S. and Canada. In addition to Switzerland and Chile, we are excited to announce plans to open in Jordan and Costa Rica this year with several other new countries in the pipeline as we work to expand our global footprint.”

### First Quarter 2022 Consolidated Results

Krispy Kreme's first quarter 2022 results reflect strong growth compared to the prior year. Net revenue grew 15.8% in the first quarter to \$372.5 million and total company organic revenue grew 15.0% in the quarter. Organic revenue growth was driven by the International segment with a strong performance in all three business units, as well as an impressive DFD performance in the U.S. and Canada business.

GAAP Net Income for the quarter was \$6.5 million, compared to a GAAP Net Loss of \$0.4 million in 2021. Adjusted EBITDA in the quarter grew 5.4% to \$48.9 million. Operating margins grew 30 basis points to 4.6% while Adjusted EBITDA margin declined 130 basis points to 13.1% from the same quarter in 2021, driven by a favorable impact of 1.1% from a business interruption reimbursement a year ago and public company costs. Adjusted Net Income declined 8.8% to \$16.1 million in the quarter. GAAP Diluted EPS in the quarter was \$0.02 compared to a net loss of \$0.03 in the same quarter last year with Adjusted Diluted EPS decreasing to \$0.08 from \$0.11 in the first quarter of 2021, largely as a result of an increased share count following the IPO.

Weighted Diluted average shares outstanding for the first quarter of 2022 were 169.5 million, compared to 125.0 million in the first quarter of 2021 primarily as a result of the IPO.

### First Quarter 2022 Market Segment Results

**U.S. and Canada:** In the U.S. and Canada segment net revenue grew 13.8% to \$253.1 million, driven by the continued execution of our omni-channel strategy. Organic revenue increased 9.7% driven by increased points of access and strong performance in DFD, with weekly average sales per door growing by 26.9% compared to the prior year. Points of access increased 218 in quarter to 5,941, which represents a 14.3% increase in points of access from a year ago.

U.S. and Canada Adjusted EBITDA increased 21.9% to \$33.6 million with margin expansion of 90 basis points to 13.3% driven primarily by efficiencies from increased Sales per Hub, with pricing actions over the last year offsetting inflationary pressures.

**International:** In the International segment, net revenue grew 31.1% to \$87.2 million, with organic growth of 35.5%. Organic growth in the quarter was driven by successful limited time offerings, expansion of DFD and an increase in average sales per door. Growth was strong across all of our International segment business units including the UK and Ireland, Mexico, Australia and New Zealand. Points of access increased by 312 to 3,203. Foreign currency translation had a negative 4.4% impact on our International net revenue growth during the quarter.

International Adjusted EBITDA increased by 12.4% over the prior year to \$17.2 million, driven primarily by revenue growth from points of access expansion and efficiencies from our Hub and Spoke model, which led to a record \$9.7 million Sales per Hub over the trailing twelve months. International Adjusted EBITDA margin was 19.8% for the quarter, compared to 23.1% a year ago when international Adjusted EBITDA margin was positively impacted by 5.2% from a business interruption reimbursement from COVID impact in 2020. Excluding that impact, International Adjusted EBITDA margins expanded by 180 basis points.

**Market Development:** In the Market Development segment, net revenue declined 1.9% to \$32.2 million driven by franchise acquisitions and a foreign currency translation impact of 3.5%. Organic revenue growth was 9.5% compared to the same period in 2021 driven by a strong performance in our franchise markets and in our equity-owned Japan market where we are implementing our omnichannel model with the expansion of eCommerce and the launch of delivered fresh daily.

Market Development Adjusted EBITDA grew 3.6% to \$11.3 million, with strong increases in Sales per Hub partially offset by domestic franchise acquisitions and foreign currency translation impacts. Adjusted EBITDA margins expanded 190 basis points to 35.0%.

## **Balance Sheet & Capital Expenditures**

During the first quarter of 2022, the company invested \$29.5 million in capital expenditures, primarily for growth including hot light theaters, cookie shops and DFD Doors.

As of April 3, 2022, the Company had \$31.6 million of cash and cash equivalents, \$696.0 million of bank debt and \$24.8 million of other debt-like items, for a total net debt of \$689.2 million. Using a trailing four quarters Adjusted EBITDA of \$190.5 million, current net leverage was 3.6x, substantially below pre-IPO levels.

## **Definitions**

The following definitions apply to terms used throughout this press release:

- **Global Points of Access:** Reflects all locations at which fresh doughnuts or cookies can be purchased. We define global points of access to include all Hot Light Theater Shops, Fresh Shops, Carts and Food Trucks, DFD Doors and Cookie Shops, at both Company-owned and franchise locations as of the end of the respective reporting period. We monitor global points of access as a metric that informs the growth of our omni-channel presence over time and believe this metric is useful to investors to understand our footprint in each of our segments.
- **Hubs:** Reflects locations where fresh doughnuts are produced and processed for sale at any point of access. We define Hubs to include self-sustaining Hot Light Theater Shops and Doughnut Factories, at both Company-owned and franchise locations as of the end of the respective reporting period.
- **Sales Per Hub:** Sales per Hub equals Fresh Revenues from Hubs with Spokes, divided by the average number of Hubs with Spokes at the end of the five most recent quarters.
- **Fresh Revenues from Hubs with Spokes:** Fresh Revenues include product sales generated from our Doughnut Shop business (including ecommerce and delivery), as well as DFD sales, but excluding sales from our legacy wholesale business and our Branded Sweet Treat Line. It also excludes all Insomnia Cookies revenues as the measure is focused on the Krispy Kreme business. Fresh Revenues from Hubs with Spokes equals the Fresh Revenues derived from those Hubs currently producing product for other shops, Carts and Food Trucks, and/or DFD Doors, but excluding Fresh Revenues derived from those Hubs not currently producing product for other shops, Carts and Food Trucks, and/or DFD Doors.
- **Total Net Leverage Ratio:** Calculated using Net Debt (including both bank debt and financing leases as part of debt) divided by Adjusted EBITDA.
- **Free Cash Flow:** Defined as cash provided by operating activities less purchases of property and equipment.

### **Non-GAAP Measures**

This press release includes certain non-GAAP financial measures including organic revenue growth, Adjusted EBITDA, Adjusted Net Income, Adjusted Diluted EPS, Fresh Revenue from Hubs with Spokes and Sales per Hub, which differ from results using U.S. Generally Accepted Accounting Principles (“GAAP”). To the extent that the Company provides guidance, it does so only on a non-GAAP basis. The Company does not provide reconciliations of such forward-looking non-GAAP measures to GAAP due to the inability to predict the amount and timing of impacts outside of the Company’s control on certain items, such as net income and other charges reflected in our reconciliation of historic numbers, the amount of which, based on historical experience, could be significant.
